Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-24, 33-38, and 48-52, drawn to assay methods, classified in Class 436, subclass 518.

II. Claims 25-32, 39-47, and 53-60, drawn to sandwich assay methods, classified in Class 435, subclass 7.94.

III. Claims 61-64, drawn to a method of determining regeneration conditions, classified in Class 530, subclass 412.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-III, related each to the other, are directed to related processes. The related inventions are distinct if the inventions as claimed do not overlap in scope, i.e., are mutually exclusive; the inventions as claimed are not obvious variants; and the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect. See MPEP § 806.05(j). In the instant case, the distinct methods are not obvious variants and differ in design, performance, and effect. A reagent for sandwich detection is not required for the methods of inventions I or III and regeneration is not required in the methods of invention I or II

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter as shown by their different classification, and the searches required for the different Groups are not co-extensive, restriction for examination purposes as indicated is proper.

Art Unit: 1641

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
